

Commitment to Africa

Physical, Economic and Social Infrastructure

Who we are

At Cardno, **Effective Development is our Business**. We create innovative solutions for sustainable development around the world. Cardno's Emerging Markets Division has over 90 years of collective experience providing specialised professional services to development programmes. We challenge the causes of poverty to improve the physical, economic and social infrastructure that underpins communities. From improving governance in Nigeria to providing sustainable water delivery in Tanzania to promoting economic growth in Namibia, Cardno is shaping the future.

The Division serves a range of donors including: the African Development Bank (AfDB); Asian Development Bank (ADB); Australian Agency for International Development (AusAID); European Development Fund; European Union; Global Fund; Millennium Challenge Corporation (MCC); UK Department for International Development (DFID); UN Agencies; US Agency for International Development (USAID); and the World Bank Group. We also work directly with partner governments, corporate clients, non-government organisations, and local communities. Cardno's global presence allows us to share successful development approaches with our clients to maximise development impact.

What we do

Physical Infrastructure

Cardno's physical infrastructure team designs and delivers engineering infrastructure and maintenance projects in transport, water supply and sanitation, and natural resources as well as public infrastructure projects such as schools and hospitals.

Economic Infrastructure

Cardno approaches economic growth by nurturing competitive private sectors that generate greater investment, employment, and incomes. Cardno often leverages donor funding with private sector investments to maximise results and promote sustainability.

Social Infrastructure

Cardno works with key stakeholders to design and implement social development strategies on issues ranging from food security and education to climate change and health.

About Cardno

Cardno is a global, multidisciplinary, professional services company that brings together 3,700 professionals implementing 130 projects in over 100 countries.

Cardno's Emerging Markets Division is truly **a global team**. We have eight corporate offices and over 150 project offices on five continents. To meet our clients' needs worldwide, Cardno brings together over 4,000 engineers, technical specialists, and development professionals who speak 40 languages.

We are responsible for implementing \$750 million in funds under contracts and grants for international donors and private clients.

Cardno in Africa

Cardno has extensive experience in Africa having worked in 51 African countries. With seven offices in Africa, Cardno is currently implementing 46 projects across 26 African countries.

Selected Project Experience

Supporting rural medical care

Helping youth find alternative livelihoods

Australia-Africa Partnerships Facility (AAPF)

AusAID, Africa Region

The Australia-Africa Partnerships Facility is part of the Australian Government's commitment to expand the development cooperation program and increase broader and deeper engagement across African countries and institutions. The Facility responds to requests for assistance from African governments, utilising opportunities to leverage links between Australia and Africa more generally. (2011 – 2013)

Value Girls Program

Nike Foundation, Kenya

Cardno is working to develop, test, and document a replicable and sustainable model for economically empowering girls by increasing and strengthening their participation in proven, high-return segments of several value chains in the Lake Victoria region of Kenya. Cardno engages key stakeholders to provide girls with training in governance, business management, technical skills, financial literacy and savings and credit management. (2008 – 2012)

Social Impact Assessment and Management Plan for Banfora Gold Project

Gryphon Minerals, Burkina Faso

Gryphon Mineral's Banfora Gold Project is co-financed by the International Finance Corporation (IFC) and must comply with IFC's Performance Standards. Gryphon Minerals engaged Cardno to provide a suite of deliverables to meet this requirement, inclusive of a Socio-economic Baseline Assessment, Social Impact Assessment and Management Plan. (2010)

Providing access to clean water

Engaging with women's community groups

Community Rehabilitation Component within the Post Conflict Rehabilitation and Capacity Building Programme

European Commission (EC), Liberia

This Programme provided technical assistance for the sustainable rebuilding of rural infrastructure and basic services in the water, health and education sectors. It included institutional strengthening of regional authorities responsible for public works programs and the coordination of donor agency and central government-funded rural development activities. (2005 – 2008)

Public Private Partnerships (PPPs) in President's Emergency Plan for Aids Relief (PEPFAR) Countries

Centers for Disease Control and Prevention (CDC), Africa Region

Cardno is implementing a five-year grant funded by the CDC to scale up PPPs in PEPFAR countries, including the Democratic Republic of the Congo, Ethiopia, Kenya, Rwanda, Sudan, Tanzania, Uganda, and Zambia. Cardno serves as a Secretariat, helping the CDC manage and administer the growing number of PPPs that leverage additional resources for PEPFAR's fight against HIV and AIDS. (2009 – 2014)

Cardno is shaping the future through physical, economic and social infrastructure.
